

Certificate of participation

Issued to : Filip-Alexandru Mocanca

Title of the course :

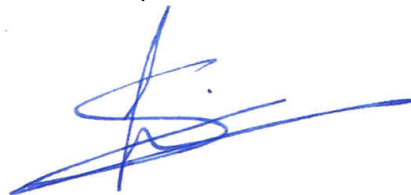

Vibe Coding – Create your own web app

Date of the course : from 15.04.2026 to 17.04.2026

Hours of training : 18 (100 %)

Attendance rate : 100 %

Esch-sur-Alzette: 21 April 2026

Dr. Serge Linckels

Deputy Director for the Vocational and
Educational Training

Terres Rouges building
14, porte de France
L-4360 Esch-sur-Alzette
T +352 247-95103

Vibe Coding – Create your own web app

Content:

1. AI-Assisted strategic planning

- Understanding what makes a website work
- Application architecture design with AI guidance and critical evaluation
- Data model creation using AI recommendations and validation techniques
- Technology stack selection through comparative AI analysis

2. Frontend development with AI support

- Component structure and state management using AI assistance
- Interface implementation with AI-generated code refinement
- Basic UX/UI principles integration through AI guidance

3. Backend development integration

- API design and implementation with AI support
- Database integration and optimization strategies
- Authentication and security implementation patterns

4. Live development and technical validation

- Real-time prototyping with stakeholder feedback integration
- Code quality assessment and technical debt prevention
- Documentation generation and maintenance strategies
- Critical evaluation of AI suggestions throughout development

Dr. Serge Linckels
Deputy Director for the Vocational and
Educational Training

info@dlh.lu

Learning Outcomes:

- Design application architectures with AI strategic guidance while maintaining critical oversight
- Create data models optimized for future scalability using AI recommendations
- Develop frontend and backend components through AI-assisted workflows
- Implement live development workflows with real-time stakeholder collaboration
- Evaluate and refine AI suggestions for technical and design decisions
- Build prototypes structured for smooth production transition
